

Geriatric Foot Care

Curriculum Overview

Designed for:

- High school students
- Post-secondary students in health occupations courses
- Certified Nursing Assistant (CNA) training courses

Length:

The activities in this curriculum will last approximately 1 hour. With supplemental materials, this curriculum can be adapted to a longer block of time.

Goal:

To help participants learn about assessing Geriatric Foot Conditions on a patient.

Synopsis:

This curriculum helps participants learn about the causes, prevention and treatment of common geriatric foot conditions. The lesson uses a slide presentation and integrates the Geriatric Foot Conditions Model to learn the proper procedure for caring for patients with these conditions. A brief quiz is included for assessment.

Curriculum Components:

- Teacher's guide - Complete lesson, including detailed steps of activities, time and materials needed, student handouts and instructor information to teach the lesson
- Student materials
- Assessment tools
- PowerPoint presentation slides

Learning Objectives:

- Identify common geriatric foot conditions
- Discuss the causes of common geriatric foot conditions
- Describe ways to prevent geriatric foot conditions
- Describe treatments for geriatric foot conditions
