

Introduction to Pediatric Endotracheal Intubation

Curriculum Overview

Designed for:

- High school students
- Post-secondary students in health occupations courses
- Certified Nursing Assistant (CNA) training courses

Length:

The activities in this curriculum will last approximately one hour. With supplemental materials, this curriculum can be adapted to a longer block of time.

Goal:

To help participants learn the reasons for intubation along with proper pediatric intubation techniques.

Synopsis:

This curriculum helps participants to utilize proper intubation terminology. They will be able to identify reasons for intubation and guidelines for safe pediatric intubation. Participants will learn to demonstrate proper pediatric intubation techniques.

Curriculum Components:

- Teacher's guide - Complete lesson, including detailed steps of activities, time and materials needed, student handouts and instructor information to teach the lesson
- Student materials
- Assessment tools
- PowerPoint presentation slides

Learning Objectives:

- Utilize proper intubation terminology
- Identify reasons for intubation
- Identify guidelines for safe pediatric intubation
- Demonstrate proper pediatric intubation techniques
